

Optical Connector Cleaner NEOCLEAN-EZ User's Manual

Thank you for choosing to use the "NEOCLEAN-EZ" optical connector cleaner. This product is a "pen-shaped" optical connector cleaner that enables you to clean optical connector ferrule end face with a simple, one-push action. Please read this manual carefully to ensure proper use of this equipment.

 Caution!	<ul style="list-style-type: none"> • This product is intended for use as a cleaner for optical connector ferrule end face. Do not use for any other purposes. • Do not use this product for cleaning lens type optical ports (such as transceivers, reception ports for optical measurement equipment, etc.). • Do NOT disassemble this product. • Do NOT touch the cleaning thread. • Please consign this product to a properly licensed waste management operator.
--	---

1. Names and Descriptions of Parts

- **Thread Remaining Confirmation Method**
When the thread has run out, a blue colored tape appears in the Thread Remaining Confirmation Window. One cleaner can be used for approximately 400 times.
- **Storage**
Avoid storing in locations with high temperature and humidity.

2. Compatible Connectors

Product Name (Model No.)	Connector	Attachment Color
NEOCLEAN-EZ1[ATC-NE-EZ1]	MU, LC	White
NEOCLEAN-EZ2[ATC-NE-EZ2]	SC, FC	Orange

3. Method of Use

● Cleaning Optical Connector Ferrule End Face Inside an Adaptor

- ① Remove the attachment and insert the guide straight into the adaptor.
- ② Push in the slider. The cleaning is completed when the push action stops.

※Extending the Tool
The tool can be extended by inserting the attachment onto the back end of the slider.

● Cleaning an Optical Connector Plug

- ① Remove the cap.
- ② Insert the plug into the hole of the tip on the front end.
- ③ Push in the slider. The cleaning is completed when the push action stops.
